RFO Task Team for the Hazardous Waste Compliance Program

H P Mann
General Manager
EG&G, Rocky Flats, Inc

This memo is to inform you that the Rocky Flats Office has formed a Task Team to confirm the oversight of EG&G's compliance with the Colorado Hazardous Waste Regulations (CHWR) through calendar year 1994. The Team was formed in response to the draft settlement order for violations of the CHWR requiring that Buildings 460 and 559 attain compliance with the CHWR by December 1993, and that the rest of the Plant must attain compliance by December 1994. The oversight program will focus on EG&G's implementation of the Hazardous Waste Compliance Program Plan and assess EG&G's interim progress in gaining compliance.

Reporting to Joe Wienand, the Task Team consists of the following full time members from the Operations, Nuclear Materials, and Waste Programs Divisions: Fred Gerdeman, John Leifer, Dave Nickless, John Schneider, and Carl Sykes. It will be augmented by other members of the RFO staff on an as-needed basis. The Task Team expects to issue the oversight plan and begin its implementation by November 1, 1993.

The critical nature of EG&G's compliance problems and the tight milestones in the settlement agreement requires concentrated effort from both DOE and EG&G. Please ensure your staff provides the required resources so that the milestones are met in the settlement agreement.
